

Technical drawing of the rear view of a vehicle body. The drawing shows a rectangular frame with a central door and a rear window. Dimensions are indicated: a width of (1240) and a height of (760). An arrow on the left points to the right, labeled 'A方向'. Material specifications are provided for various components: the frame is 27.2φx1.9t; the deck is C・PL-3.2 t; the seat is high-density polyethylene resin plate t=19mm (RE); the handle is high-density polyethylene resin plate t=19mm (BL); and the floor is high-density polyethylene resin plate t=19mm (white, red, white).

Technical drawing of an ambulance model with the following specifications and dimensions:

- Dimensions:**
 - Overall width: 1240
 - Overall height: 840
 - Wheelbase: 790
 - Ground level (G.L.) is indicated by a horizontal line.
 - Vertical dimensions from ground level to the top of the vehicle body: 100, 150, 100, 400, 50.
 - Horizontal dimensions for the base: 300 (width of the front base), 400 (width of the rear base).
- Components and Labels:**
 - 掘り込み模様** (Cutaway pattern) is shown on the side of the vehicle body.
 - タイヤ: PL-2.3 t** (Tire: PL-2.3 t) is labeled for the wheels.
 - ambulance** is written on the side of the vehicle body.
 - 高密度ポリエチレン樹脂板 t=19mm (白・赤・白)** (High-density polyethylene resin plate t=19mm (White·Red·White)) is labeled for the side panel.
 - A型基礎** (A-type base) is labeled for the front support.
 - A型基礎x4ヶ** (A-type base x 4) is labeled for the rear support.
